NEW COLLECTION

inspired by Gemma Mengual

Gemma Mengual is the only swimmer in the world to have won four gold medals at a European championship. She is considered one of the best synchronized swimmers of all time and a world leader in her sport. She competes on the Spanish team and is also known by the nickname Mermaid. She has won 17 Gold, 18 Silver and 12 Bronze medals at the World and European Championships and the Olympic Games.

Gemma: the word gemma is originally from Latin,
and means gemstone in Spanish.

Our Gemma Collection is inspired by these natural wonders, which possess many of the virtues of our collection: UNIQUENESS, BRIGHTNESS, DURABILITY, respect for the ENVIRONMENT, and extraordinary BEAUTY. This inspiration is also shared by another aquatic marvel: synchronized swimming. And we can't talk about this sport and gemstones without Gemma Mengual coming to mind.

SHINE OUT WITH THEIR OWN LIGHT

Just like a precious stone, our Gemma Collection SHINES in a natural way. Its gloss finish enhances light and projects reflections that illuminate every corner of the swimming pool, while also creating a warmer atmosphere.

And so is a pool that has an ezarri surface. All our collections are outstanding in terms of their DURABILITY, as a result of the quality of the materials, the most advanced manufacturing technology and our own exclusive pannelling system JointPoint.
